Paul Bosler

Applicant notes that original claim 34 was erroneously numbered claim 33, such that the original application included two claim 33's and no claim 34. Accordingly, the second claim identified as claim 33 in the original application will hereafter be referred to as claim 34 by Applicant.

Pursuant to the Examiner's requirement, Applicant hereby elects the invention of Group I, Subgroup B, Figure 5, for prosecution in this case at this time. Applicant submits that claims 1-22, 24-25, 27-35, 37, and 39-40 read thereon.

Applicant confirms that claims 1-2 are generic. Applicant reserves the right, in the event this claim is allowed, to have the Examiner consider all species on which these generic claims read, as provided by 37 C.F.R. 1.141. Additionally, any non-examined claims are reserved for filing in future applications.

Respectfully submitted,
